

CAREERS

Hi! I Am Looking For A Fun And Exciting Career

You found it. At DSO, you will transform ideas into game-changing defence technologies. This is more than just a career. This is where you make a real impact and shape the future of defence.

Wow! What Will I Be Doing?

You'll be spoilt for choice. Explore research areas such as:

- Algorithm Design
- Artificial Intelligence
- Communications
- Cryptology
- Cyber Security
- Data Analytics
- Digital Electronics
- Electromagnetics
- Electronics Design
- Embedded Systems
- Guided Systems
- Life Sciences
- Mechanical Design
- Operations Research
- Physical Sciences
- Radio Frequency and Microwave Electronics
- Robotics
- Signal Processing
- Software Engineering
- Underwater Technologies and more...

Great. Am I Ready?

All you need is passion and the right attitude for defence R&D. You'll never stop growing in DSO.

This is what's in store:

- Enhance your soft skills and technical knowledge with structured training programmes.
- Gain global exposure and experience with local and overseas development programmes.
- Enrich your knowledge with sponsorships and scholarships to study in local and overseas institutions.
- Hang out with gurus in their own right and share knowledge in an open and collaborative workplace.

Wait A Minute. I Want To Have Fun Too.

Of course you do. DSO excels in that, we dare say.

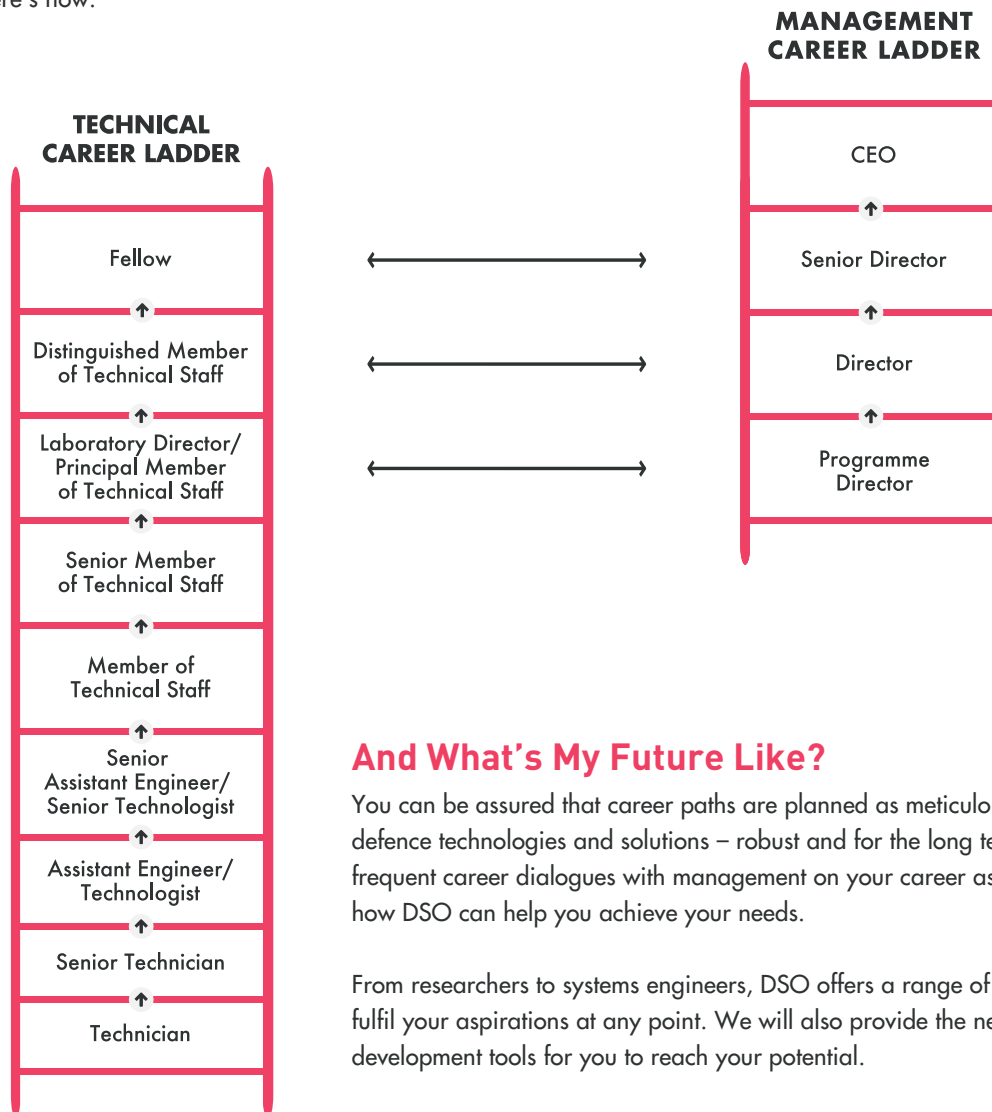

Here's how we work hard and play hard:

- Indulge in year-round recreational activities. The never-ending list includes Zumba Lunch Workout, Dragonboat, Art and Craft Sessions and Movie Night.
- Make a difference to the community too with DSO's Corporate Social Responsibility (CSR) programme. Did we mention that you choose the beneficiary of your choice, and will be given funding and time off too?
- Enjoy good work-life harmony. Meet the competing demands of work and life responsibilities, while seeking your personal interests.

I Also Want A Flexible Career Path!

Got this covered too! At DSO, you can aspire to grow in technical depth and broaden your scope in multidisciplinary projects via the Technical Career Ladder. You can also develop your management and leadership skills as you progress in DSO.

Here's how:

And What's My Future Like?

You can be assured that career paths are planned as meticulously as our defence technologies and solutions – robust and for the long term. You will have frequent career dialogues with management on your career aspirations, and how DSO can help you achieve your needs.

From researchers to systems engineers, DSO offers a range of career options to fulfil your aspirations at any point. We will also provide the necessary development tools for you to reach your potential.

I Am Sold. How Do I Apply?

Easy peasy. If you are a Singapore citizen, we are more than ready to hear from you:

For graduating students: campusrelations@dso.org.sg

For mid-careerists: recruitment@dso.org.sg
