Sembcorp Marine is the global leader in integrated offshore and marine engineering solutions. We provide innovative engineering solutions to the global offshore, marine and energy industries. Drawing upon more than 50 years of track record and an extensive network of facilities and expertise, the Group focuses on four key capabilities, namely, Rigs & Floaters; Repairs & Upgrades; Offshore Platforms and Specialised Shipbuilding.

Sembcorp Marine operates shipyards strategically located in Singapore, Indonesia, the United Kingdom and Brazil. Its customers include major oil companies, drilling contractors, shipping companies as well as owners and operators of floating production units.

By delivering innovative solutions that often redefine the possibilities of offshore, marine and energy technologies, Sembcorp Marine achieves successful and sustainable outcomes for its customers – regardless of the scale, complexity and location of the projects.

Being a dynamic and progressive organisation, we are constantly on the lookout for highly motivated, capable and creative talents to steer our company towards greater heights of excellence.
