

Cognizant

Be part of a  
**company**  
that **thinks**  
**as boldly**  
as you do.

# WHO IS COGNIZANT?

Headquartered in the U.S., Cognizant has made a dramatic impact in the technology arena. We started as nothing more than an idea in 1994. By taking a unique approach to technology, we helped many of the world's biggest organizations transform their digital futures. It did not take long for the industry to pick up on our successes, by 2011, we were already being recognized as a Fortune 500 company. Not bad for a company that many regarded as a digital upstart. We have also been consistently listed as one of the most admired companies in the world.

We consider it our responsibility to make people feel at home in the future, no matter how technology-enabled it becomes. So we are committed to helping solve some of humankind's most difficult challenges in a way that is beneficial and comfortable for people. We are also investing in training people around the world in the digital skills that will be needed to do that work.

Today, we are proud to say that our unique, industry-based, consultative approach is helping clients envision, build and run more innovative and efficient businesses. Learn how Cognizant helps clients lead with digital at [www.cognizant.com](http://www.cognizant.com) or follow us on **Twitter: Cognizant**.

## WHAT DO WE MEAN BY "DIGITAL"?

At Cognizant, "Digital" refers to the industry-appropriate solutions that we embed deep within our clients' businesses, creating new levels of value throughout their entire company.

### Digital Business:

Working with clients to reshape business models, modernize products and enhance customer experiences to drive growth.

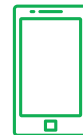

By envisioning and building innovative products and experiences, new go-to-market approaches and disruptive new business models, we help businesses to generate new growth, meaningful differentiation and real economic value. Our human-centric design thinking and depth of knowledge about industry processes helps us collaborate with organizations to inspire intelligent products, disruptive strategies, and new ways of engaging customers across every channel.

### Digital Operations:

Reinventing and managing our client's most essential business processes with new ways of working.

Our goal is to help organizations understand and build agile, intelligent and digitally-enabled processes, so as to deliver more humanized transactions and experiences by reimagining and creating the digital processes. This drives performance and enhances the relationships between customers, suppliers and partners using automation, insights and process platforms.

### Digital Systems and Technology:

Simplifying, modernizing and securing the IT infrastructure and applications that are the backbone of the client's business.

We work to evolve and future-proof an organization's applications, platforms and infrastructure to meet the needs of a modern, efficient digital enterprise. By simplifying, modernizing and securing their IT infrastructure and applications, organizations can better prepare for and adapt to high-speed change, safeguard the integrity of their core IT and be highly competitive in the new digital economy.

# TAKE YOUR PLACE IN THE DIGITAL FUTURE

When you join Cognizant, you will be surrounded by other graduates assigned to different businesses, each with their own unique skills and abilities. Cognizant's culture is highly collaborative, so great potential exists for working together on cross-functional or cross-business projects.

The program equips you with the essential knowledge and niche skills sought by industry leaders, so you can create value for our clients. Your training will include soft skills like client relationship management and applicable technical skills such as software testing and quality management.

There are also numerous events, activities and projects which will introduce you to more of your Cognizant colleagues. This will create opportunities to share, learn and grow with each other and give back to the community together. Ultimately, you can look forward to being part of our client engagement projects, where you will have the support of senior leaders and experienced associates to take our clients through the digital transformation journey.

## A position you will love

- Building business cases, customizing digital solutions and implementing proposed solutions for clients
- Gathering and analyzing large volumes of information
- Engaging with different stakeholders to understand and manage their expectations
- Coordinating with different lines of services and track project progress
- Interpret client's requirements into development plans
- Create the framework and approach on building the solution for the clients

## A candidate who will excel

- Passionate about digital world, designing and building for the people who live in it
- Comfortable in a dynamic environment and working with many teams of people
- Have a sense of humor and a positive attitude
- Ask questions, take risks and champion new ideas
- Be open to receiving feedback and constructive criticism

## Application Process

## Gain experience across a wide range of industries.

Cognizant specializes in helping some of the world's most established companies to remain well-loved brands despite today's fast-changing technology landscape. We achieve this by advancing every aspect of their customer service: digitizing their products, services and customer experiences, automating their business processes, and modernizing their technology infrastructures.

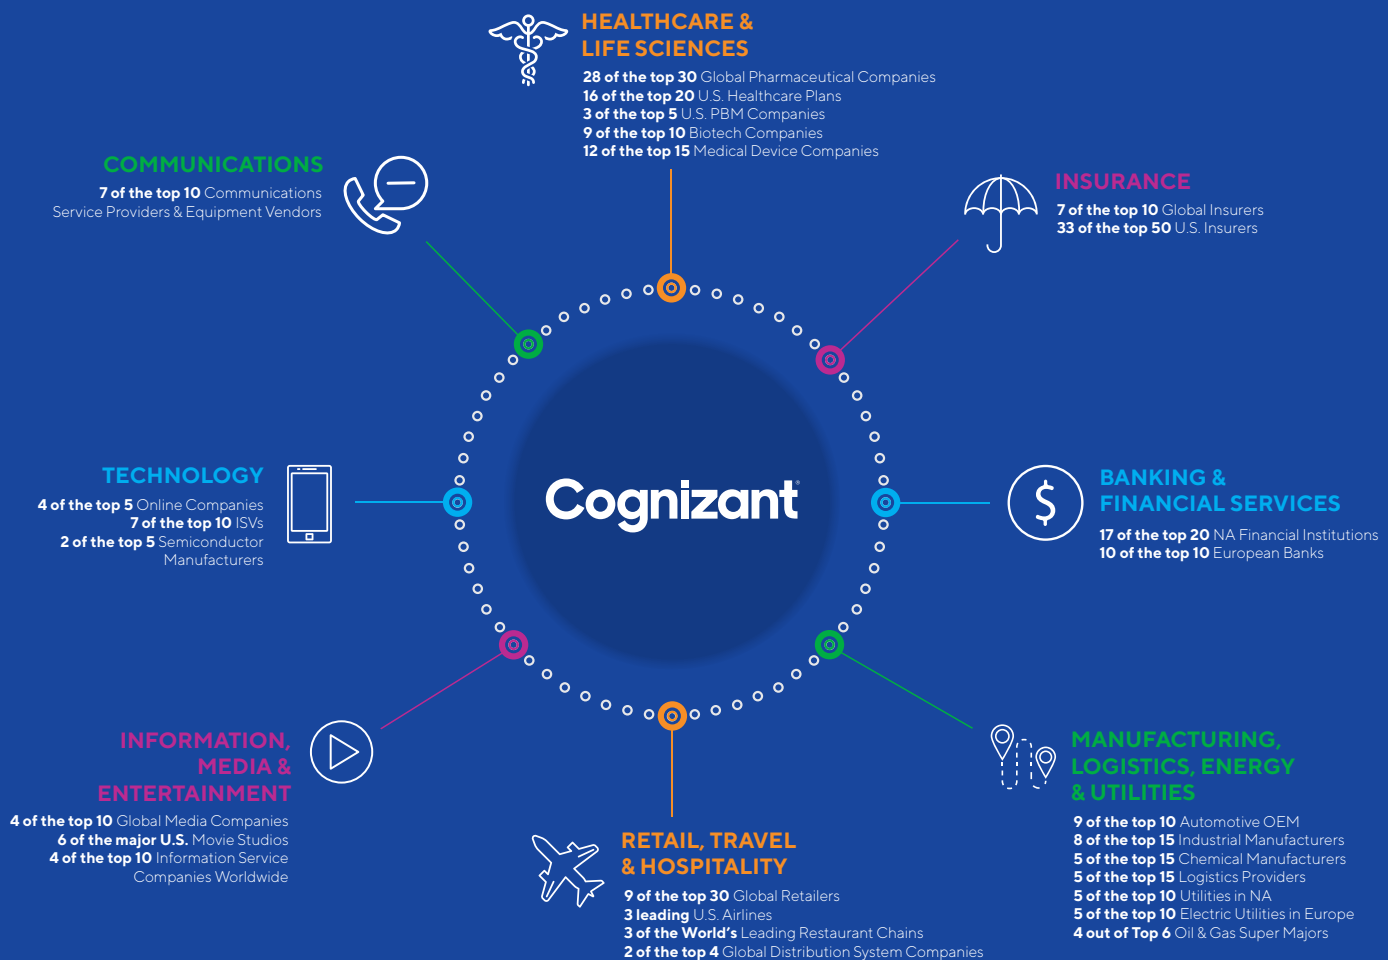

We therefore continue to invest in deepening our expertise in the latest:

**Technology areas** such as artificial intelligence, augmented reality, automation, autonomous products, cloud, cognitive computing, cybersecurity, IoT, robotics, sensors and instrumentation, and virtual reality.

**Industry and domain knowledge** across industries including banking, capital markets, insurance, healthcare, life sciences, manufacturing, logistics, retail, communications, media and technology.

So a job with Cognizant isn't just an opportunity to work with one of the world's digital leaders – it's the chance to explore multiple industries and technologies to solve some of the world's most difficult challenges and help people feel at home in the future, no matter how digital it becomes.

## OUR SERVICES SPAN MULTIPLE INDUSTRIES AND INCLUDES FORBES GLOBAL 2000 CLIENTS
