

DOCUMENT SECURITY MADE EASY

Share your confidential documents securely while preventing unauthorized access, download and misuse.

STAY IN CONTROL OF YOUR IMPORTANT DOCUMENTS

Digify is an award-winning cloud-based document security and data room software that gives you full control, protection and tracking over your documents.

1 VIRTUAL DATA ROOM

- Streamline deals with one secure file repository you can set up easily in minutes.
- See who viewed your files, when and how often.

2 DIGITAL RIGHTS MANAGEMENT

- Safeguard your intellectual property by controlling user access.
- Restrict copy and download, watermark your important files.

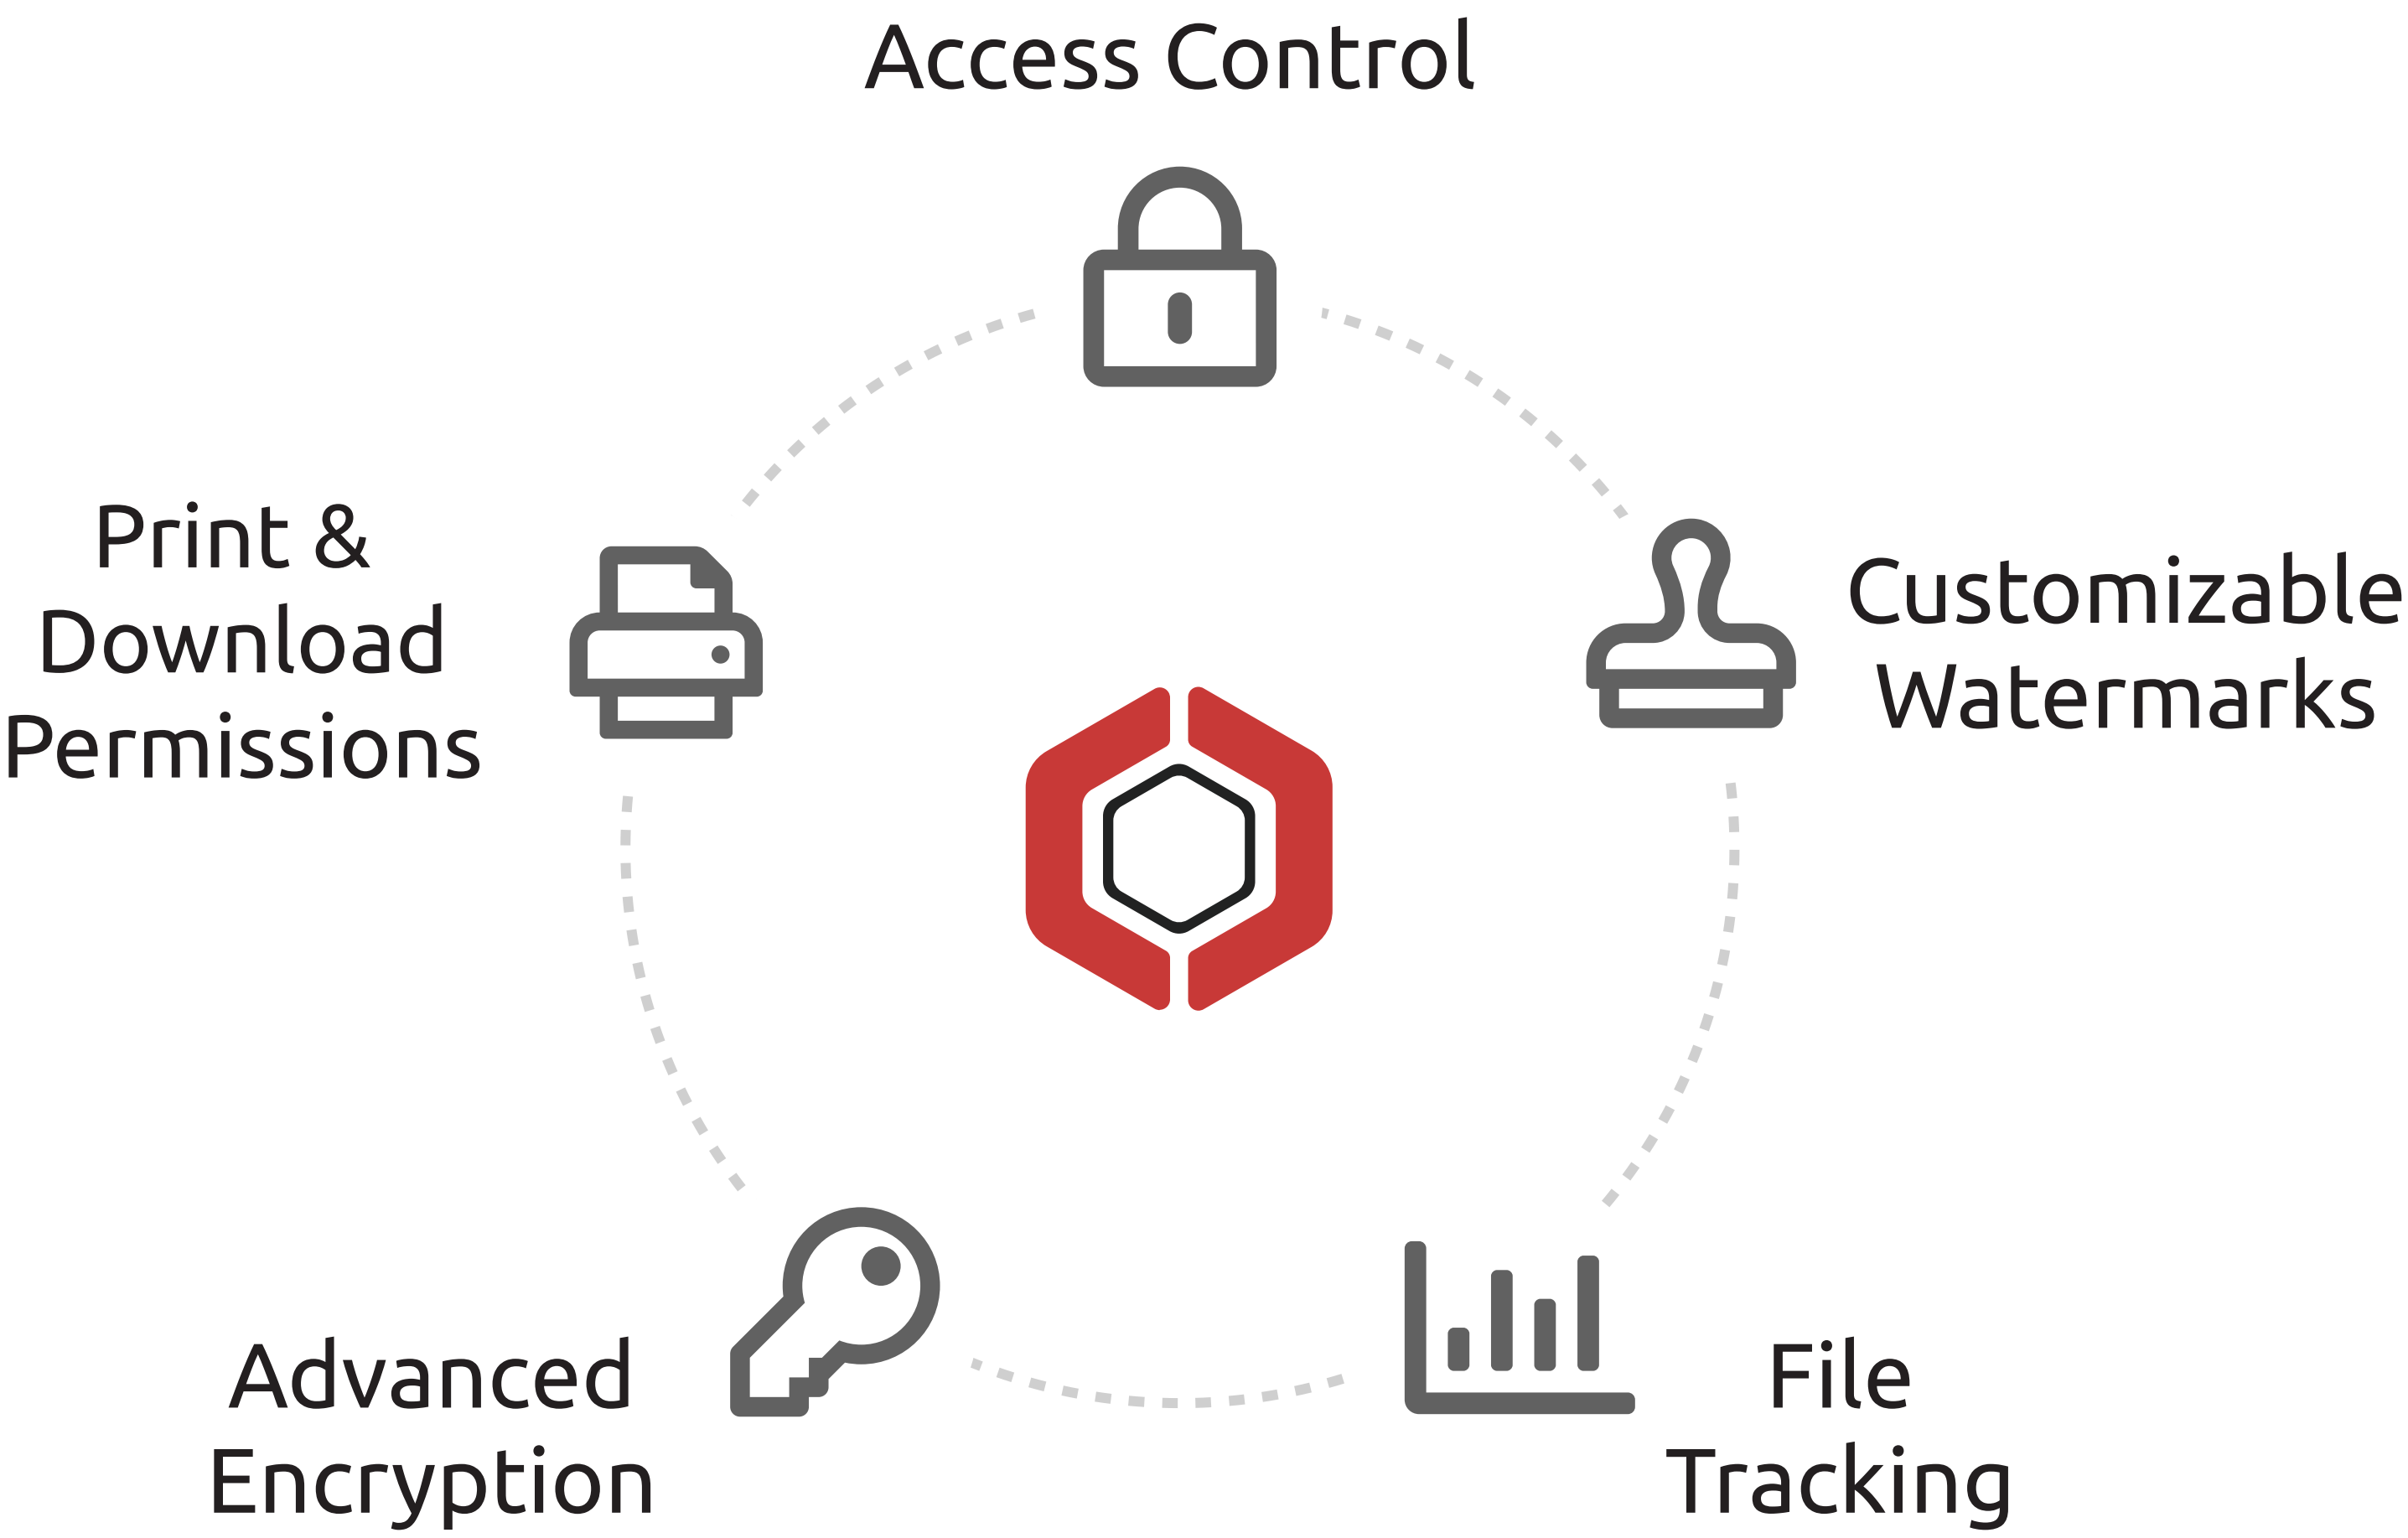

3 EMAIL PROTECTION

- Encrypt and track emails & attachments with Digify's Gmail and Outlook plugins.
- Revoke files even after sending.

"Digify demonstrated it was the most innovative by highlighting a simple and inexpensive way to address a recurring challenge of controlling and protecting ideas and information."

Hugh Thompson
CTO, Symantec head judge,
RSA Innovation Sandbox

ONE INTEGRATED SOLUTION

Information security doesn't have to be expensive or complicated. Digify combines a range of compliant document security features in one solution, suitable for multiple business applications.

STARTUP FUNDRAISING

Engage investors effectively and control confidential documents in one secure data room.

DUE DILIGENCE & INVESTOR UPDATES

Close deals faster in one secure environment for capital raising, M&A, and other transactions.

SECURITY REVIEWS & COMPLIANCE

Protect and track sensitive security reports shared with external partners.

TRAINING MATERIAL DISTRIBUTION

Distribute proprietary materials and videos securely and track engagement.

INTELLECTUAL PROPERTY PROTECTION

Protect your ideas and designs from copyright infringement.

CORPORATE COMMUNICATIONS

Relay sensitive company information for legal, HR and other internal operations.

TRUSTED BY OVER 200,000 USERS GLOBALLY
