

Position Title	Category	Adtext
Finance Manager (Budget Management)	Finance & IT audit	<p>You manage the organisation's budget. To this end, you consolidate and assess multiple departments' budget requirements, as well as analyse budget performance to make recommendations on the resource allocation. You manage and evaluate the use of resources to achieve desired outcomes. You also provide advice on finance policies and guidelines, and perform audits checks to ensure compliance with financial rules and regulations.</p> <p>You must have a tertiary qualification in business or accountancy, with preferably 2 to 3 years' financial experience. Good communication, analytical thinking and interpersonal skills, as well as proficiency in Microsoft Office is advantageous. Appointment will be commensurate with your experience.</p> <p>(Candidates with no experience may apply.)</p> <p>Only shortlisted candidates will be notified.</p>
Manager (Analysis and Management Reporting)*	Finance & IT audit	<p>You provide relevant and timely analyses of MINDEF/SAF defence expenditure and budgetary trends for management reporting. You conduct thematic studies on key financial matters that may impact the Defence Budget, as well as identify gaps and solutions to improve the management of financial resources. On this, you develop forecasting models to project the long-term sustainability of the mid and long term defence needs, and analyse the financial implications of shifts in the operating environment and budgetary demands. You also advocate the use of data and data analytics within the organisation. Your challenge lies in developing a strong understanding of external and internal issues that can affect the Defence Budget, conducting analysis independently and conveying the implications clearly to support decision-making.</p> <p>You must have a tertiary qualification in accountancy, finance, statistics, data science, business analytics, mathematical science or a related field. Possession of strong analytical, problem-solving, presentation and communication skills is required. Familiarity with analysis methods, data management, programming languages and software such as SAS, Qlik, R, Python and Power BI is advantageous. Appointment will be commensurate with your experience.</p> <p>(Candidates with no experience may apply.)</p> <p>Only shortlisted candidates will be notified.</p>
Manager (Contract Management)*	Finance & IT audit	<p>You manage all contracts related to cyber in the formation. On this, you monitor these contracts' performance and track their expiry. You work closely with internal stakeholders on the contracting process when preparing new contracts. You also assist in the management of the operations budget and ensure that there are sufficient funds for ongoing and future operational requirements. Your challenge lies in working with various internal and external stakeholders to negotiate and develop contracts to achieve MINDEF/SAF's objectives in an effective manner, while being conversant of the organisation's directives/circulars.</p> <p>You must have a tertiary qualification, preferably in Accounting, Finance, Business Management or Logistics Management. Experience in budget management, financial operations and financial advisory is advantageous. You should possess computer skills, be meticulous and able to multi-task effectively in stressful situations.</p> <p>(Candidates with no experience may apply).</p> <p>Only shortlisted candidates will be notified.</p>
