

**POWERING
THE NATION**

POWER PROGRESS WITH US

Curious about what goes behind the scenes to keep Singapore powered 24/7? Be part of the action in upholding the reliability of our national grid and power networks.

SP Group owns and operates electricity and gas transmission and distribution businesses in Singapore and Australia, and district cooling businesses in Singapore and China.

More than 1.6 million industrial, commercial and residential customers in Singapore benefit from SP's transmission, distribution and market support services.

SP Group is also enabling a low-carbon energy future through innovative, cost-effective solutions for customers in Singapore and the region.

Fuel your passion in engineering. Be part of a dedicated team that powers Singapore's world-class network, maintains reliability and drives sustainable energy solutions for our customers.

JOIN OUR TEAM

From renewing switchgears and maintaining transformers to being the first responders on the ground, you will play an integral role in keeping our electricity supply safe and reliable.

For university graduates with relevant Engineering disciplines, you will embark on a structured and comprehensive **Engineering Development for GraduatEs (EDGE)** programme.

The programme includes hands-on roles, and professional training to equip you for future leadership positions.

INTERNSHIP

Our internship programme is designed to provide students with:

**On-the-Job
Training**

**Industry
Exposure**

**Career
Counselling**

Contact us at internship@spgroup.com.sg to find out more about our various internship opportunities.

HEAR FROM OUR EDGE ENGINEERS

As an EDGE Executive Engineer, I am equipped with a strong foundation to build my career. Besides professional development and training, I also have the chance to lead teams and build my network with industry partners at external events.

Tay Wei Jia

Iniya Deivasigamani

SP Group's EDGE programme has provided me with on-the-job training to make sense of academic knowledge with reality. Pursuing an engineering career with SP Group has been truly rewarding! I feel privileged to play a part in ensuring reliable electricity and gas supply to our nation.

Managing projects requires me to work closely and foster working relationships with industry partners. We work towards a common goal of maintaining the nation's power network infrastructure. I am confident that the experience and knowledge gained at SP Group will pave the way for me to be a Professional Engineer.
