

SAP Business One Consultant (Japanese Accounts)

As part of the SAP B1 Team, responsible for pre-sales activities, full cycle project implementation, as well as support and enhancement projects for Japanese customers.

Job Description:

- Evaluate clients' current business processes and make recommendations to resolve business problems
- Conduct user requirement gathering and develop function design specifications in alignment with new business requirements
- Perform system configuration and documentation, prepare unit testing script and carry out user-acceptance testing
- Provide post-live support and conduct end-user training
- Work closely with business users and ensure good rapport with clients

Job Requirements:

- Degree in Information Technology/ Management, Computer Science, or Business (Accounting)
- Minimum 2 years' experience as SAP Business One Functional Consultant in a Consulting environment
- Professionals with Accounting, IT, or other ERP solution experience who are keen on a career in SAP consulting may apply
- Proven track record in at least 3 full-cycle project implementations for SAP Business One
- Having good knowledge of SAP HANA will be an advantage
- As the Consultant for Japanese customers and accounts, strong Japanese fluency in business and technical communications are essential
- Skilled communicator with the ability to exchange complex information effectively with customers, analyse problems, and provide clear recommendations
- Possesses excellent interpersonal skills with experience in managing multiple stakeholders and their priorities
- Good team player, self-motivated, with a positive attitude

About Us / Company Overview:

Axxis Consulting is an SAP Platinum Partner, and a leading SAP Solutions Provider with over 100 customers and 50 SAP experts. We have offices in Singapore and Malaysia, and customers across Asia, who rely on us for solutions such as S/4HANA, SAP Business One and C/4HANA.
