

Think Asia, Think Telstra.

**Connecting the world to Asia,
and Asia to the world.**

Looking to expand into Asia? We're here to make your plans a reality. Whether you're looking for an extensive and reliable network for existing global operations or to support customers' growth into APAC, Telstra has been connecting businesses worldwide to major APAC economies for over 70 years.

Telstra owns and operates the largest subsea cable network in Asia Pacific, which carries up to one-third of the region's Internet traffic. Our deep technology expertise, world-class network and access to local support staff enable us to help companies reach new growth markets. That's why when you Think Asia, Think Telstra.
