

Innovating for the future

We're Australia's leading telecommunications and technology company, with operations in more than 20 countries, including in Singapore and Hong Kong where we're looking for our next cohort of graduates.

Our 13 month Graduate Program, will launch your career, and together we'll imagine what's possible in the future. We're at the start of an exciting transformation – one that will shape the future of telecommunications products and services – and this means you'll play an important role in supporting our strategy from the moment you step through the door.

Telstra Graduate Program in Asia

We're on the lookout for the next generation of passionate and enthusiastic network engineering graduates to join our team.

You'll support the cutting edge work we're doing in areas such as Internet of Things (IoT), Software Defined Networks, cyber security, and other emerging technologies.

You'll work in an environment that's embracing ways of working like Agile, DevOps, Human Centred Design and Lean. You'll also be able to collaborate with the best people in their field and have the knowledge that your ideas will always be welcome.

Join our team, and together, let's reimagine the future.
