# About Edwards Lifesciences

Edwards Lifesciences is the global leader in patient-focused medical innovations for structural heart disease, as well as critical care and surgical monitoring.

Driven by a passion to help patients, we collaborate with the world's leading clinicians and researchers to address unmet healthcare needs, working to improve patient outcomes and enhance lives.

Founded in 1958, California USA, we established operations in Singapore in 2005.

We are a manufacturer of leading replacement heart valve technologies.

We are present in nearly 100 countries with 13,000+ employees around the world.
