

XTREMAX

DIGITAL REVOLUTION

CLOUD INNOVATION

ABOUT XTREMAX

Xtremax is an established, award-winning company that works closely with numerous Singaporean government bodies and famous MNCs to create enthralling digital experiences.

Our regular clients come to us expecting only excellence – and you would, too, when you examine our vast portfolio of top-notch digital applications.

Always at the forefront of software technology, we excel in the following areas: **Enterprise Application, Portals & CMS, Cloud Computing, Technical Support Services** and **Design & Development**.

ENTERPRISE APPLICATION

Outsource to Xtremax, and outgrow your competitors

We build enterprise applications that align with the clients' characteristics, and ensure that each application is customised according to our client's needs.

Whether it is a smartphone app, e-marketing system, or e-commerce platform, the enterprise applications that are built by Xtremax will automate more business processes, serve more users, and process larger amounts of data.

PORTALS & CMS

Customizable Portals and CMS systems for your every needs

Under our watch, content management is a cinch

A portal is a website that provides useful information about your business and is mostly supported by a CMS.

Since 2003, we have been building portals, and customising several CMSs – such as Sitecore, Sitefinity and Adobe AEM – for many clients in a very user-friendly manner.

CLOUD COMPUTING

Strategically designed to meet and handle your workload demands

Aligning your cloud computing services with Xtremax

At Xtremax, we leverage the capabilities of public cloud to realise the clients' needs, wants, and expectations. Being the biggest partner of public cloud in Singapore, we have used public cloud in collaboration with GovTech to build the cloud hosting service, Content Website Platform, which currently hosts more than 500 government websites.

✔ **Agility**

✔ **Reliability**

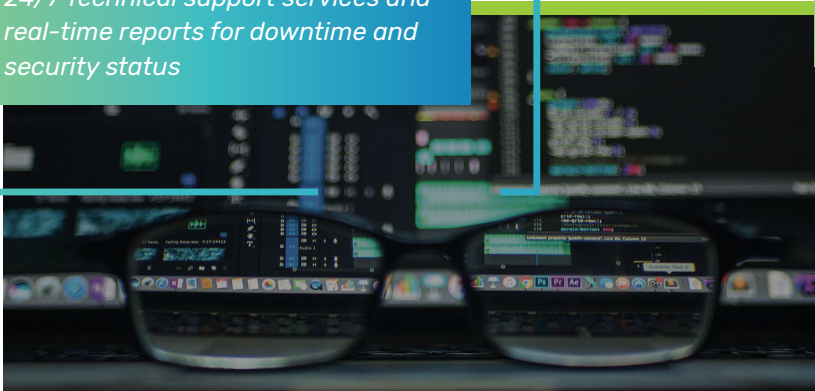

✔ **Productivity**

✔ **Scalability**

✔ **Ubiquitous**

TECHNICAL SUPPORT SERVICES

*24/7 Technical support services and
real-time reports for downtime and
security status*

Maximise profits, minimise costs

At Xtremax, we tailor every system integration to the clients' requirements, and while doing so, we continue to bear in mind the client's overarching organisational goal. This ensures that our system integration lives up to our clients' expectations of increased productivity and efficiency of their business processes.

DESIGN & DEVELOPMENT

We make beautiful functional websites and we are not just bragging

When web and application development become a guide through visual and usability journey for your audience

Xtremax creates customised solutions for every need: from static websites to large dynamic portals. With our experienced teams of digital consultants, UI designers, front-end and back-end developers, we know what makes a system work – not just from a design perspective but also in terms of interactivity, functionality and usability.

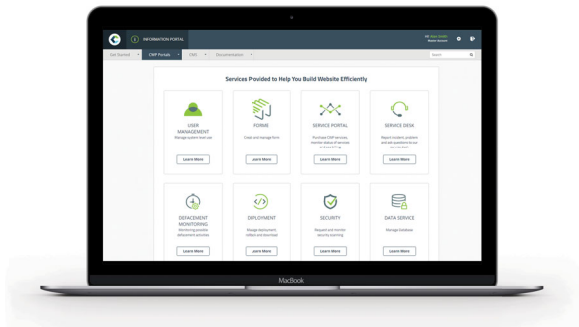

DISCOVER CWP
