

SimplifyNext is a consulting-led technology company with a dedicated focus on Automation, Analytics & Artificial Intelligence.

**Automating
the Future**

About Us

We provide a holistic approach for our customers' transformation journey from people, process and technology perspective. We bring strong process consulting experience, combined with deep technical expertise on Automation, Artificial Intelligence and Operations Analytics.

Our customers include some of the leading organizations across Government, Financial Services, Engineering, Education, Healthcare, Real Estate, Logistics, Aviation, Manufacturing and Technology. We have done projects across the different domains – Business Operations, Finance, Procurement, Sales, IT, HR, Security, Audit, Risk & Safety, etc.

We are millennial aligned with an organization structure that is incredibly flat. See it to believe it.
