

What is your ROLE IN JTC?

“

What makes the JTC internship a cut above the rest was the mentorship. As the saying goes **“tell me and I forget, teach me and I remember, involve me and I learn”**. I had a good mentor who dedicated time to guide me and offered me opportunities to explore the field of engineering. I was **actively involved in the brainstorming and decision-making process** to steer the outcome of the project.

Dickson Yee

Senior Project Manager
Reclamation

”

“

As a project manager, I **work with multi-disciplinary teams** to provide spaces which best support the needs of industrialists. It has been very fulfilling to be involved in all aspects of each project, to learn from the different disciplines within my teams, and **to be in a position to effect change**.

Amber Tan

Project Manager
