# APPLICATION GUIDANCE

We are so excited to have you on board and be part of Variantz!

We constantly get application from all over the world, and we want to make sure you get our attention. To better process your application and contact you, please be sure to provide the following information during your submission:

1. A detailed resume of your academic background.
2. For the roles you have taken both in and out of school, please state clearly what kind of activities you were responsible and demonstrated independently. Be sure to state if the role is an Individual Contributor role or Supervising Managerial role.
3. For any standout projects you would like to highlight, please share with us in detail, touching on your role, responsibility, skills used, challenges, and learnings.
4. For the skills and/or technologies you have worked on, please list them as detailed as possible, including a self-gauge of your competency in those areas.
5. Your bio and contact information

Please, send your application to 'people@variantz.com' with the subject title containing your NAME and DESIRED ROLE
