MAKE IDEAS REAL

ROHDE & SCHWARZ

Make ideas real

WHERE YOU CAN FIND ROHDE & SCHWARZ

Air traffic controllers all over the world use our radio technologies to communicate with pilots and ensure the safety of flights.

One of the things our detection system does is help prevent collisions with drones near airports.

We provide test solutions for the development and production of smartphones.

Our automotive test solutions make autonomous driving safe.

Our test and measurement solutions guarantee that key factors of wireless smart home devices like proper functionality, battery life and performance are fulfilled.

We are a global technology leader, where:

You'll shape the future

What you do will lay the foundation for technologies like autonomous driving, smart cities and IoT.

You'll have opportunities for growth

You'll be equipped with resources for your professional development and opportunities only a global leader can provide.

You'll live and breathe innovation

On our team, you'll be empowered and inspired to bring your innovative ideas to life.
