

Xilinx Careers

About Xilinx

- Founded in 1984
- 3500+ patents
- Industry pioneer & Innovator
- 20,000 customers worldwide
- 3,500+ employees worldwide
- \$2.38B FY'15 revenue

Join Us In Shaping Tomorrow's Technology, Today!

With over 3,500 patents and 60 industry firsts, Xilinx is known for its historic achievements including the introduction of the first FPGA and the inception of the fabless model.

Xilinx is shaping the future on multiple fronts: inventing and integrating all forms of programmable technologies, adding new forms of intelligence to next generation smarter systems, and broadening its user base beyond traditional FPGA engineers to software and systems engineers. As a result, Xilinx is now the world's leading provider of All Programmable FPGAs, SoCs, 3D ICs and next generation programming environments.

Xilinx technology is found in a broad range of ever smarter applications including Mars probes, wired and wireless networking infrastructure, high definition video cameras and displays, and industrial manufacturing and automation equipment.

- Wireless Communications

Workforce Leadership: Committed to Our Customers and Employees

Our commitment to deliver cutting edge technology and enable customers to create state-of-the-art electronics is made possible by our innovative workforce. The Xilinx workforce is embodied by people who are driven, collaborative, and out-of-the-box thinkers who thrive in solving difficult challenges and delighting our customers.

What Do We Believe In?

- Representing the best versions of ourselves in all that we do – living the Xilinx way
- Engaging in a learning culture where our people can drive their careers and realize their personal and professional development goals
- Creating an environment where our people can inspire and be inspired through social collaboration and thought leadership
- Being a community of giving where our people help to improve the environment, increase social enrichment, and contribute to economic growth globally
- Providing an equal-opportunity, high integrity, professional, socially and environmentally-responsible, fun, and safe work environment for our people

We Care About Our Communities and Invest in the Development of Our Employees Worldwide

At Xilinx, you will have a unique and dynamic career experience with great opportunities to accelerate your personal growth. Our culture and our industry leading talent management programs will enable you to do your best and be recognized for your results.

Passionate employees can inspire entire communities. As the recipient of many community awards, we are proud to define the standard for impacting our global community through local engagement. Xilinx employees have opportunities to participate and contribute in giving back throughout the year. We strongly support participation in company sponsored global projects focused around our key pillars - education, community and social services, health, and the arts.

Visit xilinx.com/about/community-engagement.html to learn more about our community activities.

Shape the Future with us!
