

# LOOK TO THE FUTURE

Since Changi Airport's inception in 1981, we've always looked to the future. We introduced novel experiences at Changi Airport and claimed many firsts, from thematic gardens to a rooftop swimming pool and many other attractions. We were also the first to introduce facilities and services that catered to a new generation of technology-connected travellers. This spirit of bold innovation has been recognised year after year with over 600 accolades, including the coveted Skytrax's World's Best Airport Award Of The Year.

We're encouraged by our achievements, and we're far from done. Changi Airport Group (CAG) continues to push the boundaries with developments such as Jewel Changi Airport and Changi East. Our dream is to revolutionise the aviation industry by anticipating passenger needs and delivering world-class experiences. What does that mean? It may encompass the transformation of airports to be self-sustaining cities in the future, where drones deliver your baggage, robots assist you to your gate and levitating trains at airport terminals are an everyday sight. Our goal, quite simply, is to be the airport of tomorrow.

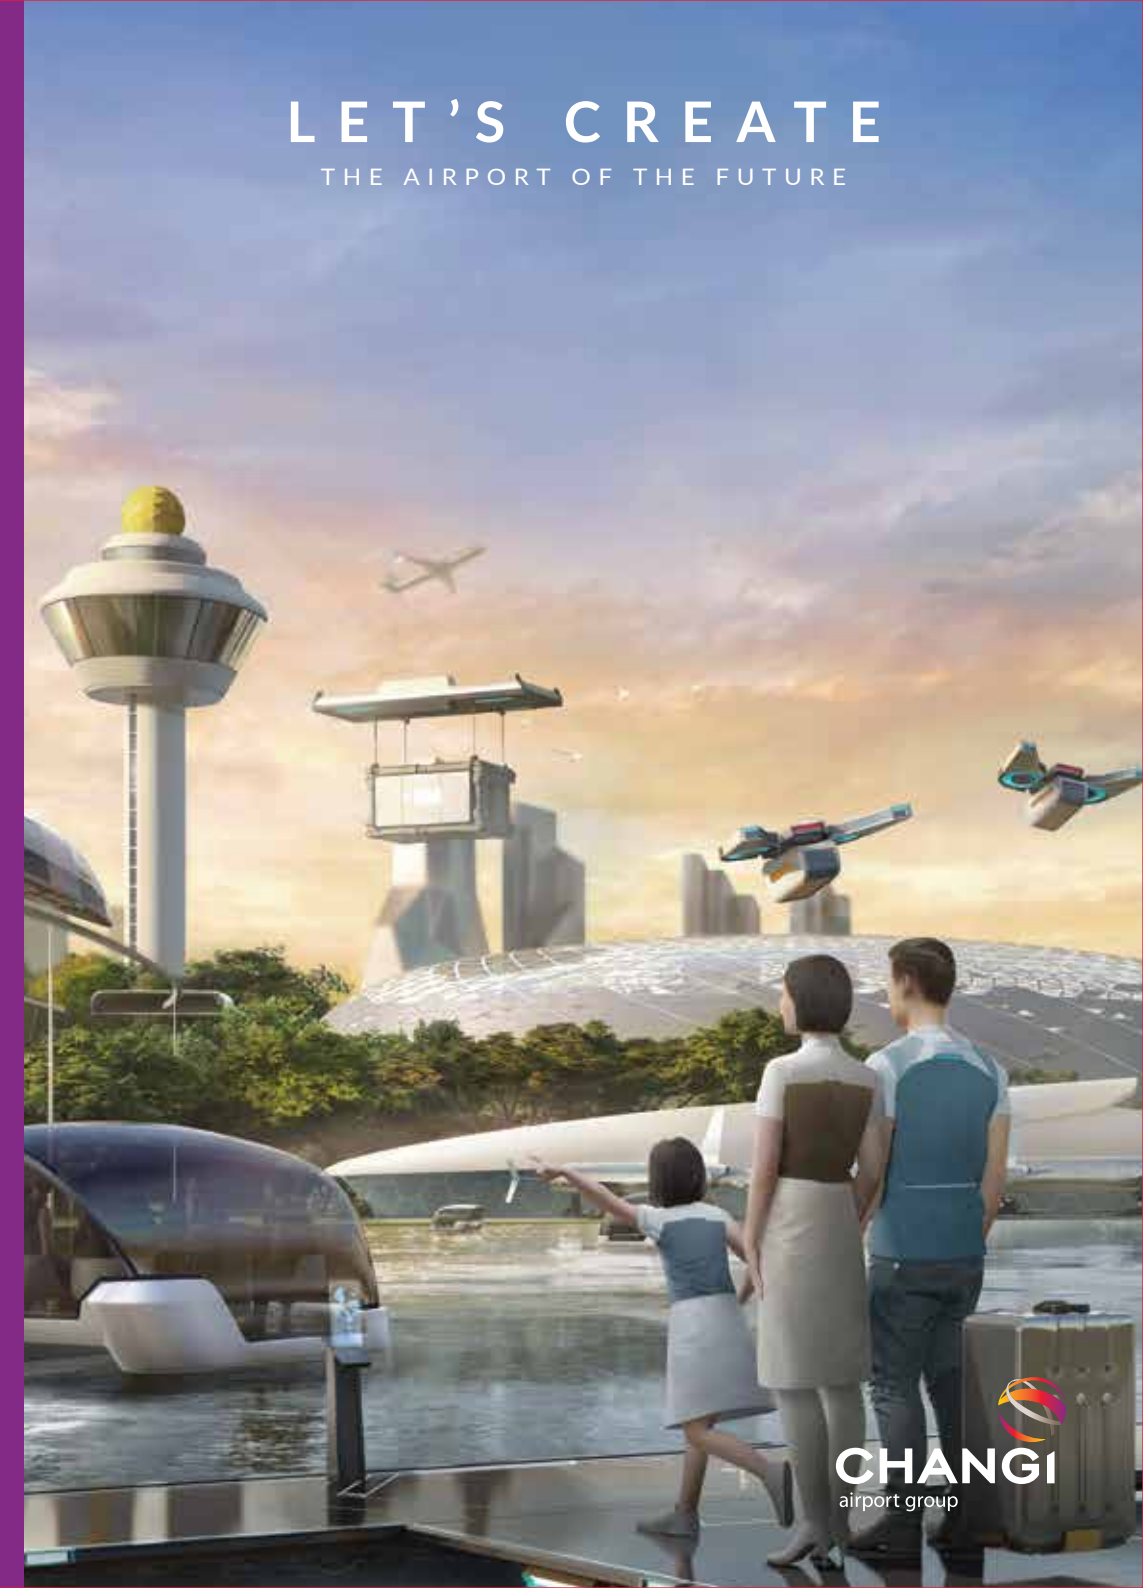

To realise this, we count on the energy and expertise of our most valuable asset - our people. Join us on our journey to deliver an unparalleled travel experience through passion, innovation and a culture of excellence. At Changi, the future is not something we're heading towards but something we're creating through the power of our collective imagination. Together we'll rewrite the future of aviation.
