

Join us as Graduate Engineer

If you are passionate about finding innovative solutions to overcome engineering/construction challenges and is keen to disrupt the industry, we invite you to be part of our team!

About Us

Headquartered in Hong Kong, Gammon has a reputation for delivering high quality projects throughout China and Southeast Asia, as well as offering innovative solutions and services to our customers.

Since its establishment in 1958, Gammon has played a significant role in the transformation of the great capital cities of Asia. We are proud of delivering high quality projects, as well as offering innovative solutions and services to our customers. The skills and the values we have developed for 60 years continue to contribute to the growth of Asia and to create new heights.

At Gammon, we focus on our customers' needs and how we can best use our abilities and resources to add value for them through innovative and sustainable solutions. We pride ourselves on the imagination, skill and high standards we apply to all of our projects.
