

PEOPLE, DATA & TECHNOLOGY DELIVERING GEOSCIENCE LEADERSHIP

At CGG, we hire and develop exceptional people. We seek challenges and are inspired by those we face. We are committed to innovation and invest in R&D to develop new geoscience technologies and equipment, and harness AI, machine learning and data analytics.

GEOTRAINING

GeoTraining brings together the full breadth of CGG's skill development programs to provide the E&P industry with comprehensive geoscience learning path programs.

OPERATING SAFELY, WITH INTEGRITY TO DELIVER SUSTAINABLE PERFORMANCE

At CGG, health, safety, security, environment and social responsibility are embedded in our management system. We take pride in our work and partner with clients and the communities in which we operate to ensure the best outcomes for all.

DELIVERING GEOSCIENCE LEADERSHIP

CGG offers a comprehensive range of leading geophysical, geological and reservoir technologies, data and equipment that optimize the discovery and development of natural resources.
