## Lab Analyst

TÜV SÜD – A global leader in the field of testing, inspection, management system certification and product certification renowned for quality, integrity and technical excellence.

We test, we certify, we audit, we advise. We never stop challenging ourselves for the safety of society and its people. We breathe technology, we strive for professional excellence, and we leave a mark.

#FUTUREINYOURHANDS

As a Lab Analyst, you will perform an all-encompassing role that involves lab-based analysis work as well as customer, laboratory and people management.

- Perform laboratory evaluation and analysis to ensure that products are in line with safety, security and sustainability standards
  - Chemical analysis on industrial and consumer product samples (i.e. water treatment chemicals, paint / coating, food, pharmaceutical)
  - Microbiological testing on food, pharmaceutical or water
  - Physical and chemical testing on water samples
  - Instrumental analysis on micro-contamination on industrial applications
  - Analysis on organic compounds in various environmental samples
- Develop and validate analytical methods
- Develop and commercialize new services or innovations
