

Internship 2021

Software Engineering / Computer Science Intern

Your Talent meets unlimited possibilities

Description

Works Applications was established 23 years ago in Japan, and we have since expanded our offices to Singapore, Shanghai, and Chennai.

Our ERP systems enable our clients to get ahead of the game: the more we improve our ERP systems, the quicker our clients can make their business decisions and grasp what is to come at an even earlier stage.

Voices

"I liked the project that was assigned to me. There was a lot of scope for us to shape the project in any desired way. This helps in deciding how a product turns out in the end."

"Everyone is really friendly. I don't think there can be any better working environment. It couldn't have been any better. Really enjoyed my stay here. The time spent here is going to be some of the best times of my life."

"I'd never forget this intern and would really like to work in your company."
