## Our Graduate Hires

What do you find meaningful about AIC's work?

Read 14:10

The most meaningful experience of my work is to see the translation of a programme's intended outcome to actual improvements of the client's well-being and experience. 😊

Ben Lung Jun Yuan (NUS/2019)

Working @ AIC has also been a great place for me to learn and be better aware of different community partners working hard to make the lives of our seniors better. 😊

Darshinee Raman (NTU/2018)

Being able to give back to the community through AIC is one of the many things that made my job at AIC more heartwarming and meaningful as I know that my work is benefitting the public. 😊

Denise Goh (SIT/2018)

I know the services and help we provide can improve the quality of life and is a step closer to creating brighter future for the vulnerable in society. 😊

Nadira Samsudin (SUSS/2018)

In AIC, through my interactions with the nursing home providers and their dedicated staff, I was most inspired by their strong passion to care for our seniors. This had deeply motivated me to continue doing my part in AIC for the community care sector. 😊

Loh Yi Jun (SMU/2016)
