SEAGATE
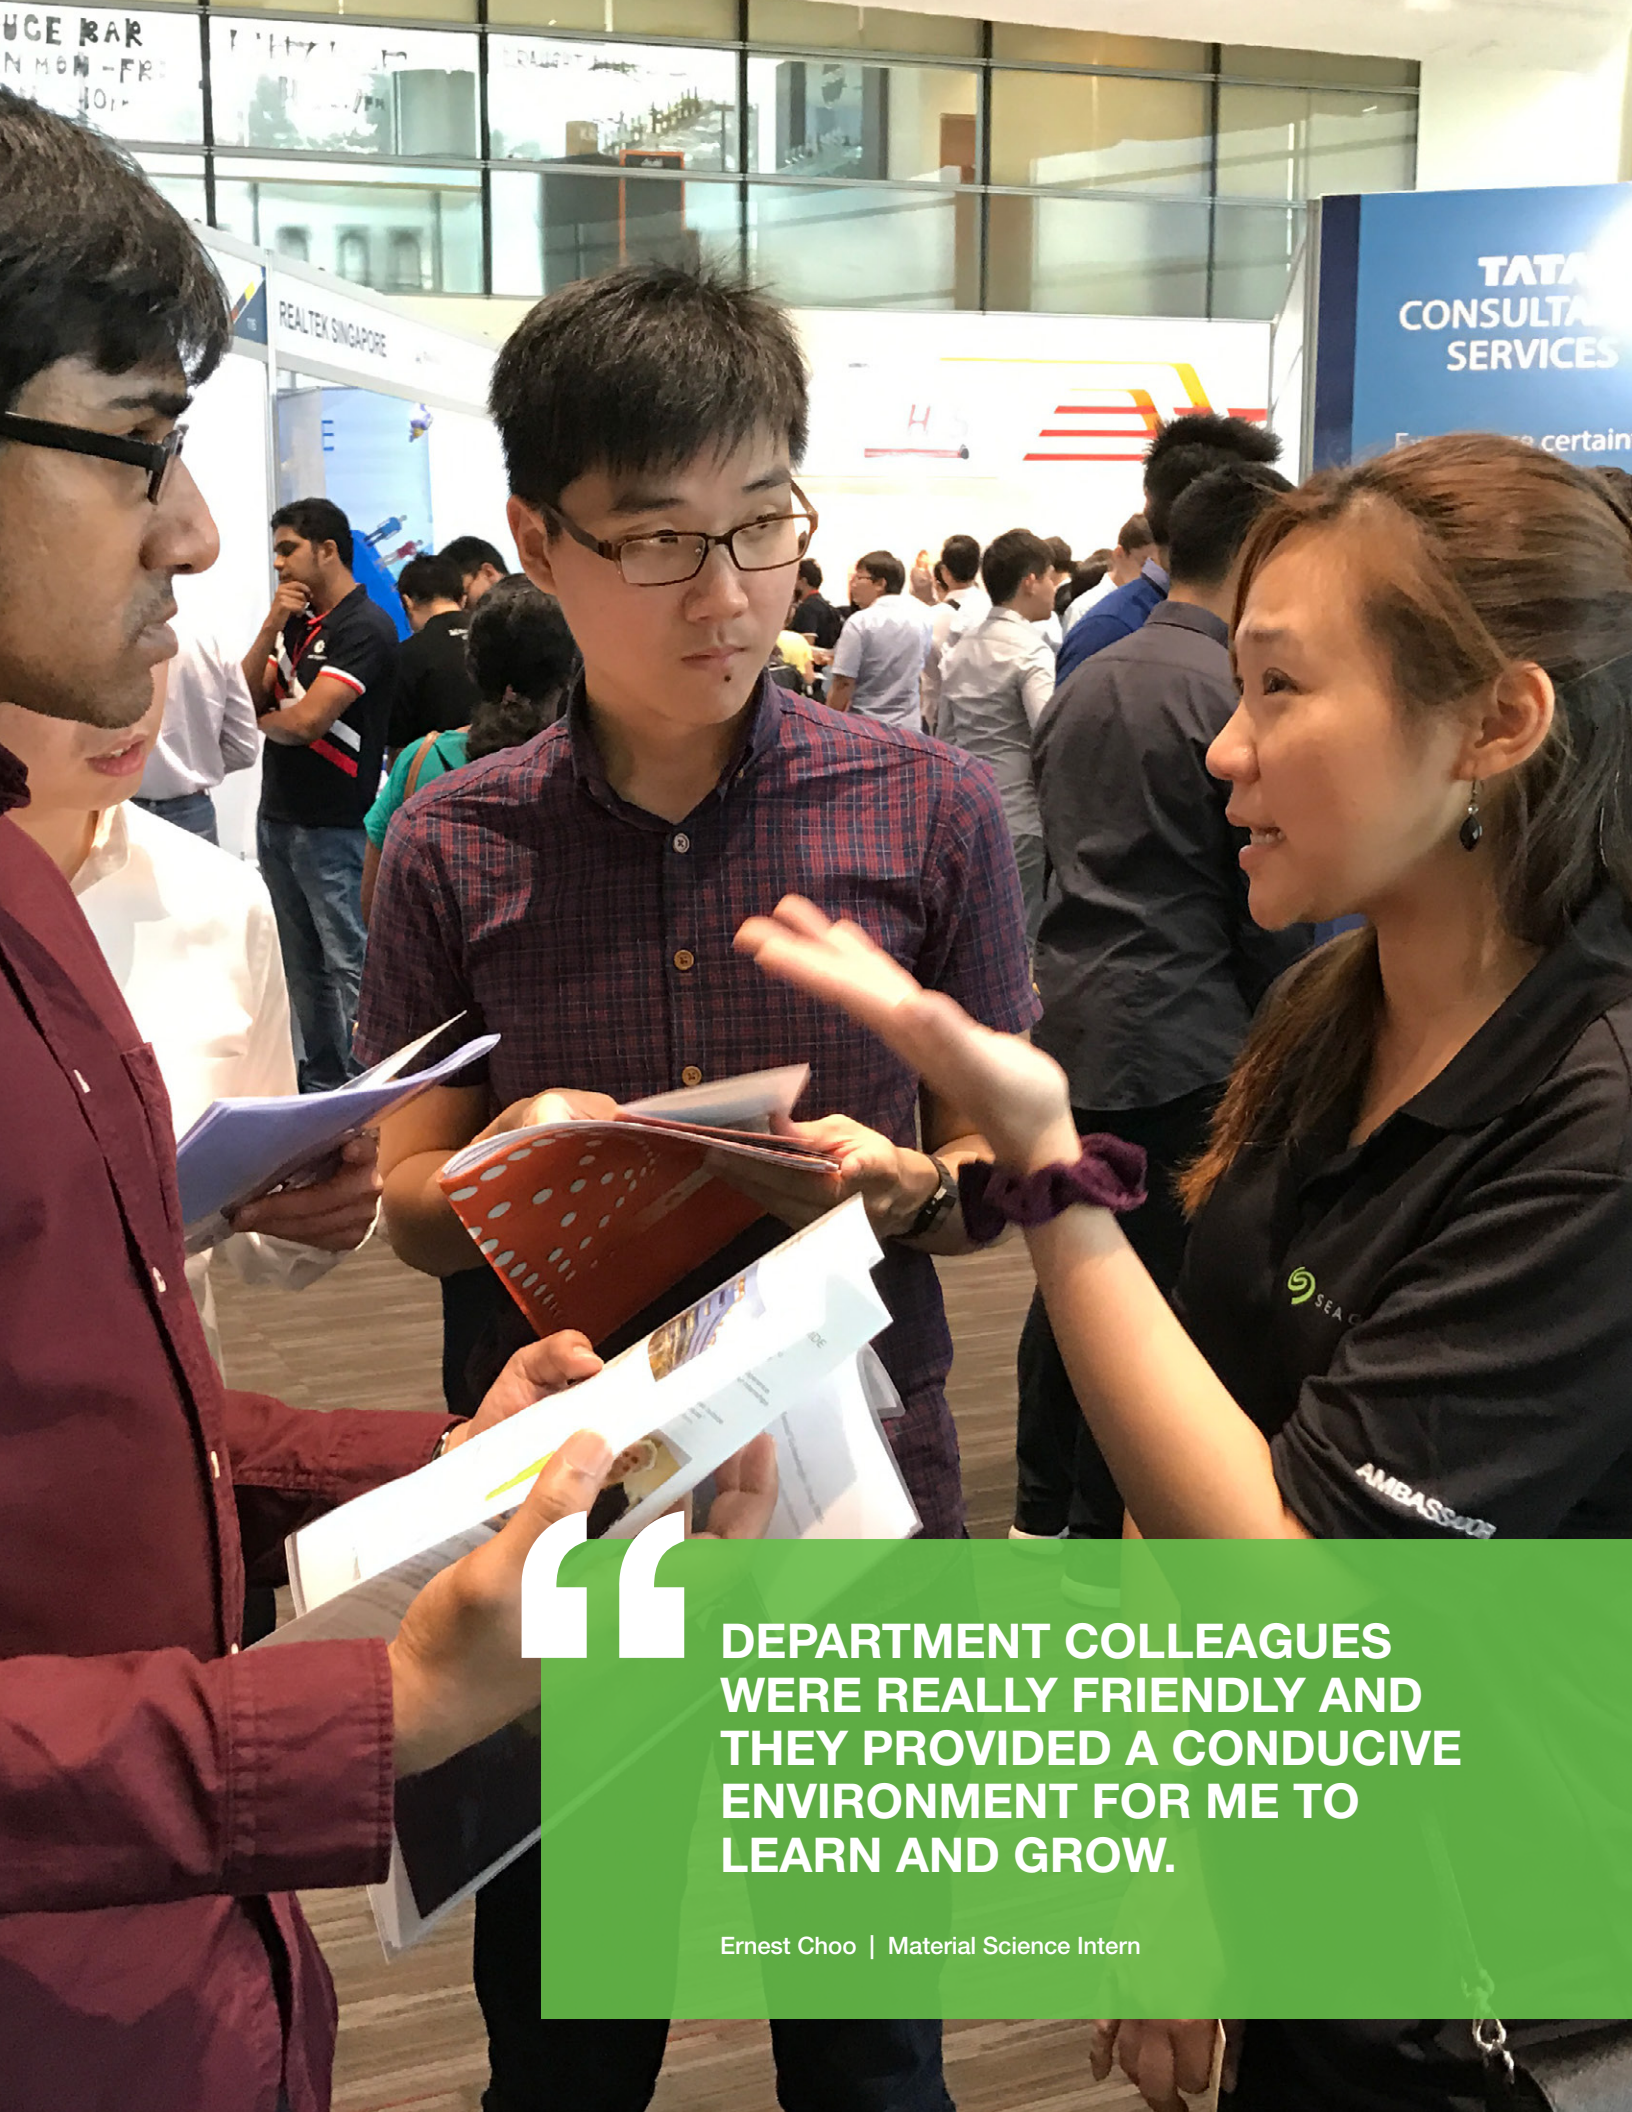

SEAGATE INTERNSHIP PROGRAM

YOUR FUTURE IS BRIGHT

Providing opportunities to challenge yourself and gain valuable work experience

> ## DEPARTMENT COLLEAGUES WERE REALLY FRIENDLY AND THEY PROVIDED A CONDUCIVE ENVIRONMENT FOR ME TO LEARN AND GROW.
>
> Ernest Choo | Material Science Intern

CRAFT THE DATASPHERE

The need for data storage has never been greater. Leave your mark on humanity through an innovative, challenging, and rewarding internship opportunity with potential to return with a full-time job after graduation.

We offer opportunities in many of our business areas, including engineering, computer science, material science, applied physics, information technology, and business and accountancy. These paid internships typically last from 3 to 12 months.

Company Culture

Our culture is focused on our Corporate Values—Integrity, Innovation, and Inclusion. Join a worldwide team of talented, collaborative, innovative people who thrive in a work environment where people can share knowledge and learn from one another. You won't find a more exciting place to build your career and challenge yourself.

Extend Your Education With Hands-on Opportunities

Each year, hundreds of students join us to gain real-world experience, learn about our industry, and get a glimpse of what a career is like at Seagate.

REAL WORK

- Interns dive into meaningful projects alongside industry experts
- At the end of the internship, interns present their work and findings to colleagues through a poster presentation

BENEFITS

- Paid competitive monthly allowance
- Eligible for annual leave and sick leave entitlement
- Subsidized out-patient treatment
- Access to site facilities: site cafe, fitness room, game room, etc.
- Get involved in fun activities on-site
- Join an Employee Resource Group— Women's Leadership Network, Young Professionals, and even more

LEARNING AND SOCIAL EVENTS

- Our learning series foster personal and professional growth and opportunities to learn more about the data storage industry
- Social events include lunches, outings, and community service projects

Come work on real projects and gain on-the-job experience in one of our Singapore locations.

Woodlands

Our Woodlands site is one of the largest electronics manufacturing sites in Singapore, housing our recording media operations. Spread over three sites, it is easily accessible via bus or from the MRT Station, with many employees taking mass-transportation to work. Ample free on-site parking is also available. Here at work you can enjoy breakfast, lunch, dinner, and snacks at our on-site canteen and coffee shop. We offer a range of facilities including an in-house gym and dance studio, as well as after-work badminton and table tennis competitions. On-site celebrations and community volunteer opportunities also abound. Don't miss our Lunar New Year Lion Dance performance or our Seagate's Got Talent event.

Shugart

The Shugart site (named after Seagate's founder, Al Shugart) is a research and design center. Easily accessible from the One-North MRT Station, many employees choose to take mass-transportation to work. Ample free on-site parking is also available. Being a purpose-built building, the Shugart has excellent employee recreational facilities. Take an active break at our badminton courts, table tennis tables, in-house gym, and recreation rooms. Our yoga and zumba classes are very popular. We also offer classes and interest groups in photography, gardening, and foreign languages, and have various on-site celebrations and community volunteer opportunities.

> " TEAM BONDING AMONG INTERNS WAS VERY GOOD! BECAUSE OF THIS INTERNSHIP, I COULD ADD NEW SKILLS TO MY PROFILE. DEFINITELY LOOKING FOR A PERMANENT POSITION IN SEAGATE ONCE I GRADUATE.
>
> Madhan Vignesh Srinivasan | Global Operation IT Intern

> **THE INTERN PRESENTATION HELD DURING MY END OF THE INTERNSHIP PERIOD WAS A NICE TOUCH TO THIS INTERNSHIP PROGRAM. IT'S GOOD TO KNOW WHAT OTHER INTERNS ARE DOING THROUGHOUT THEIR INTERNSHIP OVER HERE IN SEAGATE.**

Gal MengChuan | HRIS Intern

Graduate Opportunities

Our products and services are best-in-class. As a Seagate intern, so are you. Many of our interns end up on our permanent workforce. Seagate enables people and businesses to create, share, and preserve their most important memories and data. As an industry leader in cloud, mobile, and open-source computing, Seagate provides employees with unique career opportunities.

Our new hire on-boarding programs offer a competitive compensation and benefits package. You will be able to collaborate with innovative thinkers and have cutting-edge technology at your fingertips. Great perks like gym access and cafes help create a wonderful work/life balance, as do the many opportunities to make a difference at work and in your community.

Seagate provides hiring opportunities across multiple fields:

Engineering	Physics
Computer Science	Information Technology
Materials Science	Finance
Quality Assurance	Business Administration
Mathematics	Sales and Marketing

How to join us?

Go to **seagate.com/jobs** to apply for our openings today!

If you don't find a suitable opening, register with Seagate Talent Network to receive career updates and to be considered for future opportunities.
