ECOLAB® | **NALCO** Water

Are you looking for a fulfilling career?

Ecolab is the global leader in water, hygiene and antimicrobial technologies and services – providing and protecting what is vital: clean water, safe food and healthy environments.

With our worldwide reach and ambitious growth plans, you'll have the opportunity to learn and grow, shape your career, make an impact and quickly see the importance of your work.

We need talented professionals like you

Ecolab is looking for STEM (Science, Technology, Engineering and Maths) candidates with a passion for continuous improvement and problem solving.

Are you a highly-collaborative and accountable team builder who values strong relationships and thrives on a challenge?

Experience requirements

Experience varies by level. Graduate degree required for most roles.

Roles at Ecolab include

Technical Sales Representative

Our promise to you

Expertise

We want you to bring your expertise to solve important and tough challenges impacting our customers and communities. You have the freedom to be creative and make a meaningful impact.

Team collaboration

You will collaborate with world-class colleagues in a culture that moves quickly, and values learning, support, honesty and transparency.

Diverse perspectives

We believe in the power of many perspectives and actively work to create an environment where all voices are heard, and diversity is valued, sought out and fought for.
