See possibilities
through an internship with us

Discover your *True Potential*

Embark on an enriching and immersive learning experience with the best engineers and developers. Gain hands-on opportunities in multidisciplinary work and exposure in the exciting world of defence science, engineering and technology.

WHY INTERN WITH US

Dream Big and Innovate

Turn your ideas into innovative solutions for the defence and security of Singapore.

Pursue your Passion

Explore exciting opportunities and meaningful projects in these technological areas and more!

- Artificial intelligence
- Augmented / Virtual reality
- Cybersecurity
- Data analytics
- Internet of Things
- Machine learning
- Military platforms
- Robotics
- Sensors
- Unmanned technologies

Hone your Skills and Talent

Gain real-world work experience and learn beyond your field of study across a wide range of disciplines in engineering, infocomm technology and cybersecurity. Our dedicated and experienced mentors will share their expertise and guide you to realise your potential.

Be Part of the DSTA Family

Our interns are part of the family. Have fun, deepen your skills and build your network at our events.

Internship opportunities are available for students from Junior Colleges, Polytechnics and Universities.

Join us to tackle the challenges of tomorrow and make an impact on the defence of the nation today.
